Networks of International Trade and Investment
Sara Gorgoni (Ed.), University of Greenwich et al.

This book makes a case for the use of network analysis alongside existing techniques in order to investigate pressing issues in international business and economics. The authors put forward a range of studies that examine topics such as the evolution of world trade patterns. Providing an accessible explanation of network analysis, this edited volume is an important contribution to research in international trade and investment.

The Political Economy of the Space Age
Andrea Sommariva, SDA Bocconi

“Sommariva’s book [is] a thoroughly researched account of the history and evolution of a field of theoretical and practical engagement which will shape the future of Human Society, as the title rightly states.”

Professor Carlo Secchi, Bocconi University
The Challenge of Credit Supply
American Problems and Solutions 1650-1950
Michael Anthony Kirsch

This book offers an accessible treatment of the most pivotal financial and monetary policies in American history from 1650 to 1950. An emphasis is placed on how and why these policies facilitated the supply of adequate credit for economic development.

Understanding DSGE Models
Theory and Applications
Celso Jose Costa Junior,
São Paulo School of Economics

Striving to present DSGE models in a detailed manner, this book guides readers through an otherwise daunting process. By showcasing concrete applications, it aims to persuade early-career researchers of the practicality of this methodology.

Economic Growth
How it works and it transformed the world
Edward A. Hudson

Combining historical depth, intellectual clarity and practical relevance, this book offers insights that will interest academics and professionals, while its comprehensive yet clear explanations make it an excellent guidebook for anyone interested in economic growth.

Art, Theory and Practice in the Anthropocene

Julie Reiss (Ed.), Christie’s Education

This book contributes to the growing literature on artistic responses to global climate change and its consequences. Presenting essays by thirteen art historians, art critics, curators, artists and educators, it offers different frameworks for talking about visual representation and the current environmental crisis. The anthology models a range of methodological approaches and contributes to an understanding of how artists and those writing about art construct narratives around the environment.

Essays in Post-Critical Philosophy of Technology
Mihály Héder, Eszter Nádasi, Budapest University of Technology and Economics (Eds.)

Philosophy of technology seeks to understand the impact on and meaning of technology for society. This volume applies this branch of philosophical inquiry to both historical and contemporary examples. Challenging past approaches, the selected essays ask, what has been the historical role of technology in social and scientific change? And, how can a ‘post-critical’ approach enhance and extend our understanding of philosophy of technology?

**ARGUMENTATION STRATEGIES IN THE CLASSROOM**

“The book’s strength is in its rigorous, exhaustive and updated theoretical background. [It] covers a gap in the literature in the field of argumentation. Teachers need books like this one.”

Dr. Mercè Garcia-Miñà
Universitat de Barcelona

Quality commitment
Thanks to our growing community of reviewers all our books are peer reviewed. Committed to producing high-quality titles, we employ tried-and-tested quality control processes in all stages of production. Our editorial checks ensure that all books adhere to high standards of consistency, readability and coherence. We adopt a pragmatic approach to turning around a manuscript quickly and intervene only when necessary.

Editorial values and standards
A work’s contribution to knowledge, irrespective of approach or perspective, is the central criterion of our acquisition process. Importantly, our acquisitions are driven by their research impact and current academic trends rather than saleability. Peer review, in-house editorial expertise and collaboration with advisory editors ensure our titles are relevant and of a high academic standard. Our commitment to scholarship has been recognized with inclusion in the lists of academic publishers maintained by the Spanish National Research Council, the Finnish Publication Forum and the Norwegian Centre for Research Data.

Individual attention
We care for and pay attention to the needs of each of our authors. We are responsive to author queries and strive to keep you up to date with manuscript’s progress towards publication. We only enlist qualified and sufficiently motivated experts to review your work and guide them to offer constructive criticism. This ensures that peer reviews are thorough, constructive and respectful of your effort as an author.

Maximum exposure
We work closely with our industry and academic community partners to understand current trends and market our titles appropriately. Besides traditional book marketing, we make extensive use of digital marketing tools and are able to work with authors on promotional activities. All our books are also published as e-books and paperbacks. As reported in WorldCat, our books are held by academic libraries worldwide. Our books are also available through a wide range of specialized resellers, e-book aggregators, select academic bookshops and online retailers such as Amazon and Barnes and Noble.

No cost burden & flexibility about open access
It’s simple: we never charge authors for publishing - no hidden fees, no surprises. Our no-charge promise reflects our confidence in commissioning only high-quality works, the quality of our production and the efficiency of our workflow. Authors of monographs are offered complimentary copies of their book and all authors can purchase additional copies at a 40% discount.
PRICING & DISCOUNTS
All our authors get generous discounts across the range of our titles. Discounts are also available for bulk purchases or as part of long-term agreements with academic associations, university libraries and major resellers.

CHANNELS
You can order directly from our website or with major academic distributors, including YBP, EBSCO e-books, ProQuest, Brodart, Ingram, Nielsen and Amazon. For bulk orders please contact accounts@vernonpress.com to set up a trade account.
